# Rediscovering happiness.

Every new detail in the new Santa Fe, both visible and hidden, is geared towards one goal: family. Rediscover your family's happiness with upscale designs that brighten up daily routines, interior spaces big enough to accommodate all types of lifestyles and advanced technology that keeps everyone safe at all times. Stay focused on your family's happiness. Santa Fe will do the rest.

# Making every day upscale.

Santa Fe's wide, distinctive grille merges seamlessly with the main headlamps while dynamic side proportions lead to the rear lamps, delicately wrapped around the edges of the vehicle. Santa Fe's perfectly-balanced stance will ensure an unrivaled presence on the road, helping you make every moment of your day brilliant.

# Making every day comfortable.

Santa Fe's interior isn't just bigger – it's filled with more thoughtfulness for the entire family. The high center console's soft and plush leather surface offers the comfort of an armchair the moment you sit down, while the neatly-aligned buttons allow hassle-free control of various functions. The state-of-the-art digital cluster and LCD screen are visually attractive to watch as they provide you with meticulous care while you drive.

\*Only available on 1.6L HEV HS and 2.2L D variants.

# The perfect family car.

Don't worry about extra family members or distances with the Santa Fe. A wide choice of seat variations and convenient features will accommodate everyone, everywhere. A simple button is all it takes to fold and slide the second row seats forward for easier access to the third row seats, while Santa Fe's new platform and layout design provides more room in the second row and cargo area, ensuring a comfortable journey for all. When both hands are full, thoughtful details like the Smart Power Tailgate will take a load off your shoulders.

# Diverse power options controlled easily.

Santa Fe's powerful driving performance boasts not only eye-catching numbers, but a wide range of options such as dynamic or comfortable driving, depending on the road conditions. Santa Fe also automatically recognizes the core driving tendencies of different family members, offering optimal driving modes for each driver.

## 1.6 Gamma II T-GDI Hybrid Engine

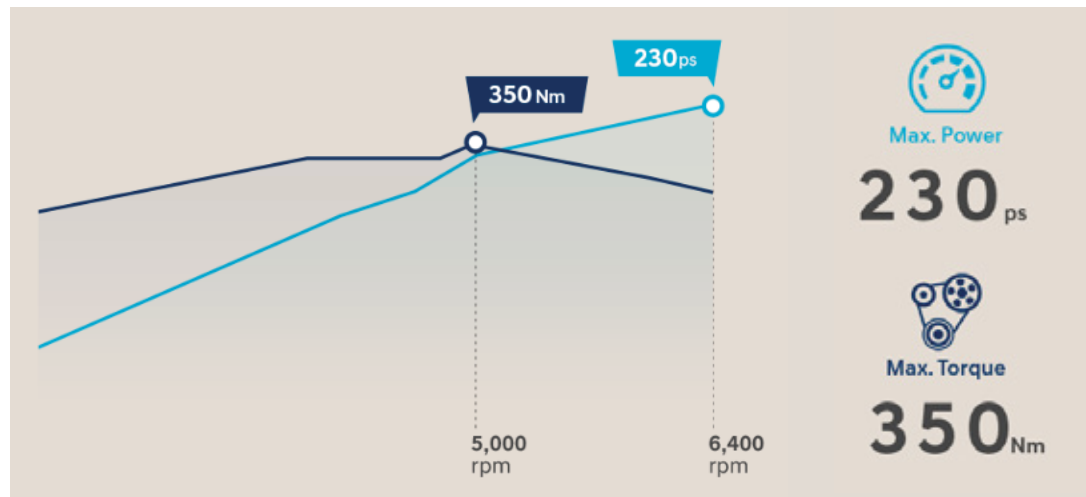

180 Maximum power  
PS/ 5,500rpm

265 Maximum torque  
Nm/ 1,500 - 4500rpm

## 2.2 CRDi Diesel Engine

202 Maximum power  
PS/ 3,800rpm

440 Maximum torque  
Nm/ 1,750 - 2,750rpm

### Combined system output (1.6 T-GDi Hybrid)

In order to achieve optimal hybrid performance as an SUV, an exclusive TMED (Transmission Mounted Electric Device) type is applied to the Santa Fe. This enhances the output power and performance of the electric motor, which produces a maximum power of 44.2kW and a maximum torque of 264Nm.

### Drive mode\*

Simply turn knob to select the mode that suits you best: COMFORT for everyday driving, ECO for optimal fuel efficiency, SPORT for quicker acceleration, or SMART which automatically adjusts gear shift intervals based on recent driving patterns.

\*Only available on the 2.2L D variant.

# Defy expectations.

Equipped with diverse driving capabilities and a new platform that provides a spacious interior, the new Santa Fe's power and flexibility make it a family SUV ready for any situation. Features such as its AWD system, which optimally distributes power to the front and rear wheels depending on the driving conditions, and enhanced cargo space and leg room in the second and third rows will ensure a comfortable ride for any journey.

## All-Wheel Drive\*

This system automatically senses slippery or unstable driving conditions that even the driver may not detect and proactively balances power between the front and rear wheels to ensure stability at all times.

### Highway Cruise

### Cornering

### Slippery Road

### New Body Platform

A new, next-generation platform has been applied to the Santa Fe, maximizing vehicle stability and creating more cargo space and legroom in the second and third rows. The new platform also brings with it significant improvements in collision safety, thanks to the increased usage of Advanced High-Strength Steel and hot stamping.

### 2nd Row Leg Room (7seats)

1,040mm

### 3rd Row Leg Room

746mm

### Cargo Capacity (7seats, 3rd row folded)

max 782ℓ

\*Only available on the 2.2L D variant.

# Hyundai SmartSense™.

Being prepared involves detailed and meticulous care. Santa Fe's Advanced Driver Assistance System considers the various conditions a driver might unexpectedly face to undertake complex decisions or minimize mistakes.

## Forward Collision-Avoidance Assist (FCA, junction turning)

This function warns the driver when a forward collision risk is detected, such as with a pedestrian, cyclist or vehicle that suddenly slows down or stops ahead. If the risk of collision continues to increase after the warning, it automatically assists with emergency braking. The same applies to collision risks with oncoming vehicles while turning right at an intersection.

## Blind-Spot Collision-Avoidance Assist (BCA)

When operating the turn signals to change lanes, if there is a risk of collision with a rear side vehicle, the function provides a warning. If the collision risk increases even after the warning, the function automatically controls the vehicle to help avoid a collision. If there is a risk of collision with a rear side vehicle while exiting a parallel parking spot, the function automatically assists with emergency braking.

## Safe Exit Assist (SEA)

This function provides a warning if a vehicle approaching from the rear side is detected as the occupant opens the door to exit the vehicle. If you attempt to deactivate the child safety lock in such situations, SEA will override you to keep the rear doors closed.

#### Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

This function warns the driver if a collision risk is detected from the left or right side of the vehicle while reversing. If the risk increases even after the warning, RCCA helps to stop the vehicle.

#### Lane Following Assist (LFA)

The front camera tracks lane markers and helps keep the vehicle safe in the middle of the lane.

#### Lane Keeping Assist (LKA)

The front view camera detects lane markings (by the roadside) to monitor the vehicle's position in its starting lane. The system will warn the driver when the car leaves the roadside, without using the turn signal and automatically steer the wheel to prevent it from diverting from its current lane.

#### High Beam Assist (HBA)

Scans the road ahead for oncoming headlights, then automatically adjusts your headlamp range, switching between high and low beam as necessary.

#### Rear Occupant Alert (ROA)

This standard feature can sound an alert to remind of rear seat occupants when exiting the vehicle.
