

SANTA FE

Expand your Horizons

Whether it's on bustling city streets or the great outdoors, the new SANTA FE makes every journey a bold, exciting adventure.

Built for Boldness

Refined in form and rugged in performance, the new SANTA FE exudes strength and class with its commanding presence.

Exterior

Stylishly sleek yet unmistakably brawny, the new SANTA FE also features signature glowing H-lights that further add a distinct look to its bold profile.

H-lights (LED/Projection type) Head Lamps

21-inch Alloy Wheels / Sharp Fenders

Hidden-type Assist Handle / Quarter Glass

LED Rear Combination Lamps

Bridge-type Roof Rail / Dual Sunroof

Lift open the wide tailgate and bridge the indoors with the outdoors, bringing new space to your escapades.

Wide Tailgate Opening (Power Opening)

Interior

Created with spacious seating and exceptional comfort in mind, the interior of the new SANTA FE will make any drive a truly relaxing one.

Front Relaxation Seat with Legrest

Ambient Mood Lamp

Nappa Leather Seat

Panoramic Curved Display 12.3-inch Cluster and Infotainment

2nd-row Fold-and-Dive

Seating arrangements within can also be adjusted to your liking, ensuring that you're always ready to accomodate any situation.

6-Seater

7-Seater

2nd-row Power Reclining Captain Seat

One-touch Walk-in

Bilateral Multi-Console

Space for More

Aside from its bold elegance, the interior also seamlessly integrates a variety of practical storage spaces to suit your needs.

Front Upper-tray

Under Floor Box

Dual Wireless Smartphone
Charging Pad (Qi Standard)

Rear Lower-tray

UV-C Sterilization Multi-tray

Our suite of integrated tech will also serve to truly take your journeys to the next level.

Driver Memory Seat

Remote Smart Parking Assist (RSPA)

BOSE Premium Sound System

6.6-inch Touch-type Auto Dual Zone Climate Control AC

Performance

Smartstream Gasoline 2.5 T-GDI Engine

281 Maximum Power
PS/5,800 RPM

422 Maximum Torque
Nm / 1,700-4,000 RPM

Smartstream Gasoline 1.6 T-GDI Hybrid Engine

235 Maximum Power
PS/5,600 RPM

367 Maximum Torque
Nm / 1,000-4,000 RPM

4WD HTRAC

SANTA FE AWD provides optimal driving performance by actively distributing driving forces to the front and rear wheels depending on the situation.

Drive Mode / Terrain Mode (Mud, Sand, Snow)

Hybrid

Our hybrid systems make every journey in the new SANTA FE a comfortable and smooth experience.

e-Comfort Drive

When passing speed bumps, this hybrid technology manages the motor to reduce vehicle shaking and provide a smooth ride on an uneven road.

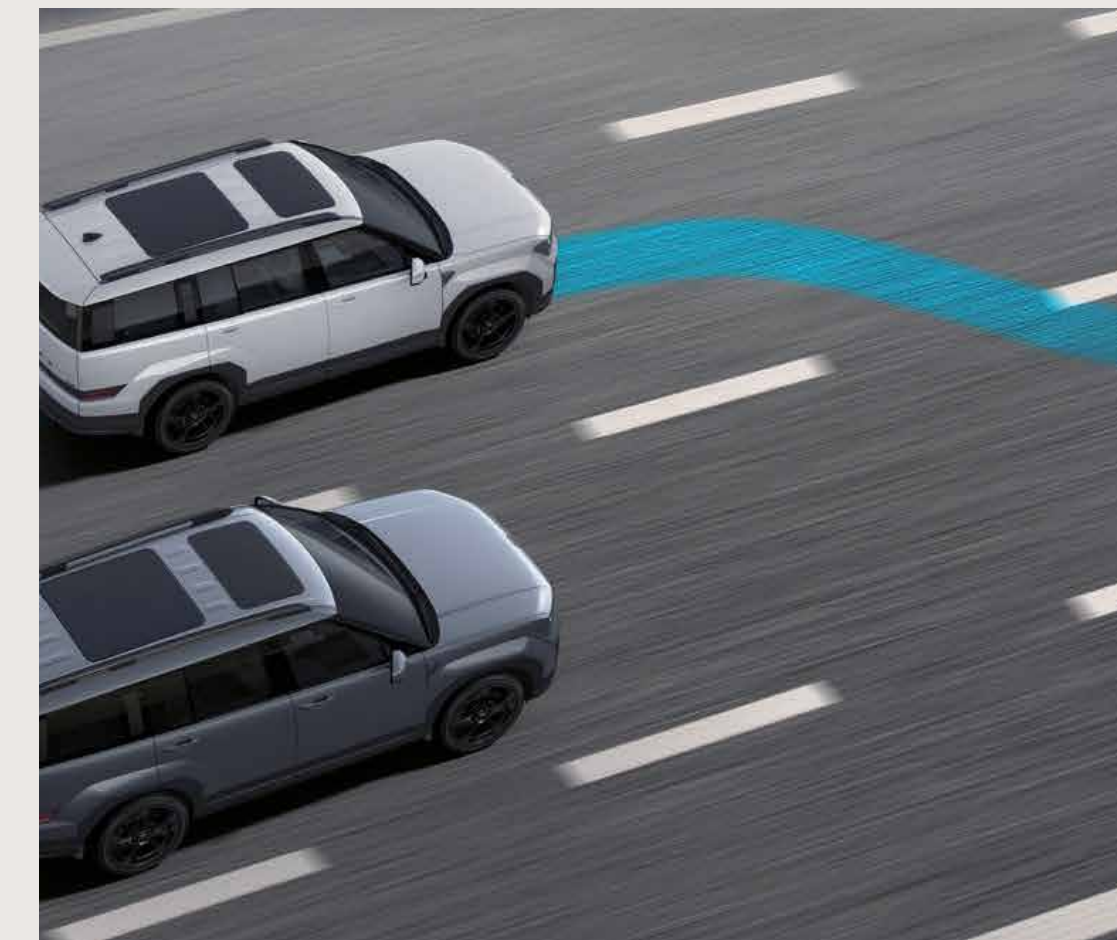

When accelerating, the hybrid system controls the vehicle's motion such that the driver experiences less shaking and more linear acceleration.

e-Dynamic Drive

When the vehicle approaches a turn, the hybrid system regulates the vehicle's movement to execute torque vectoring while simultaneously maintaining the ideal level of tire grip for dynamic handling performance.

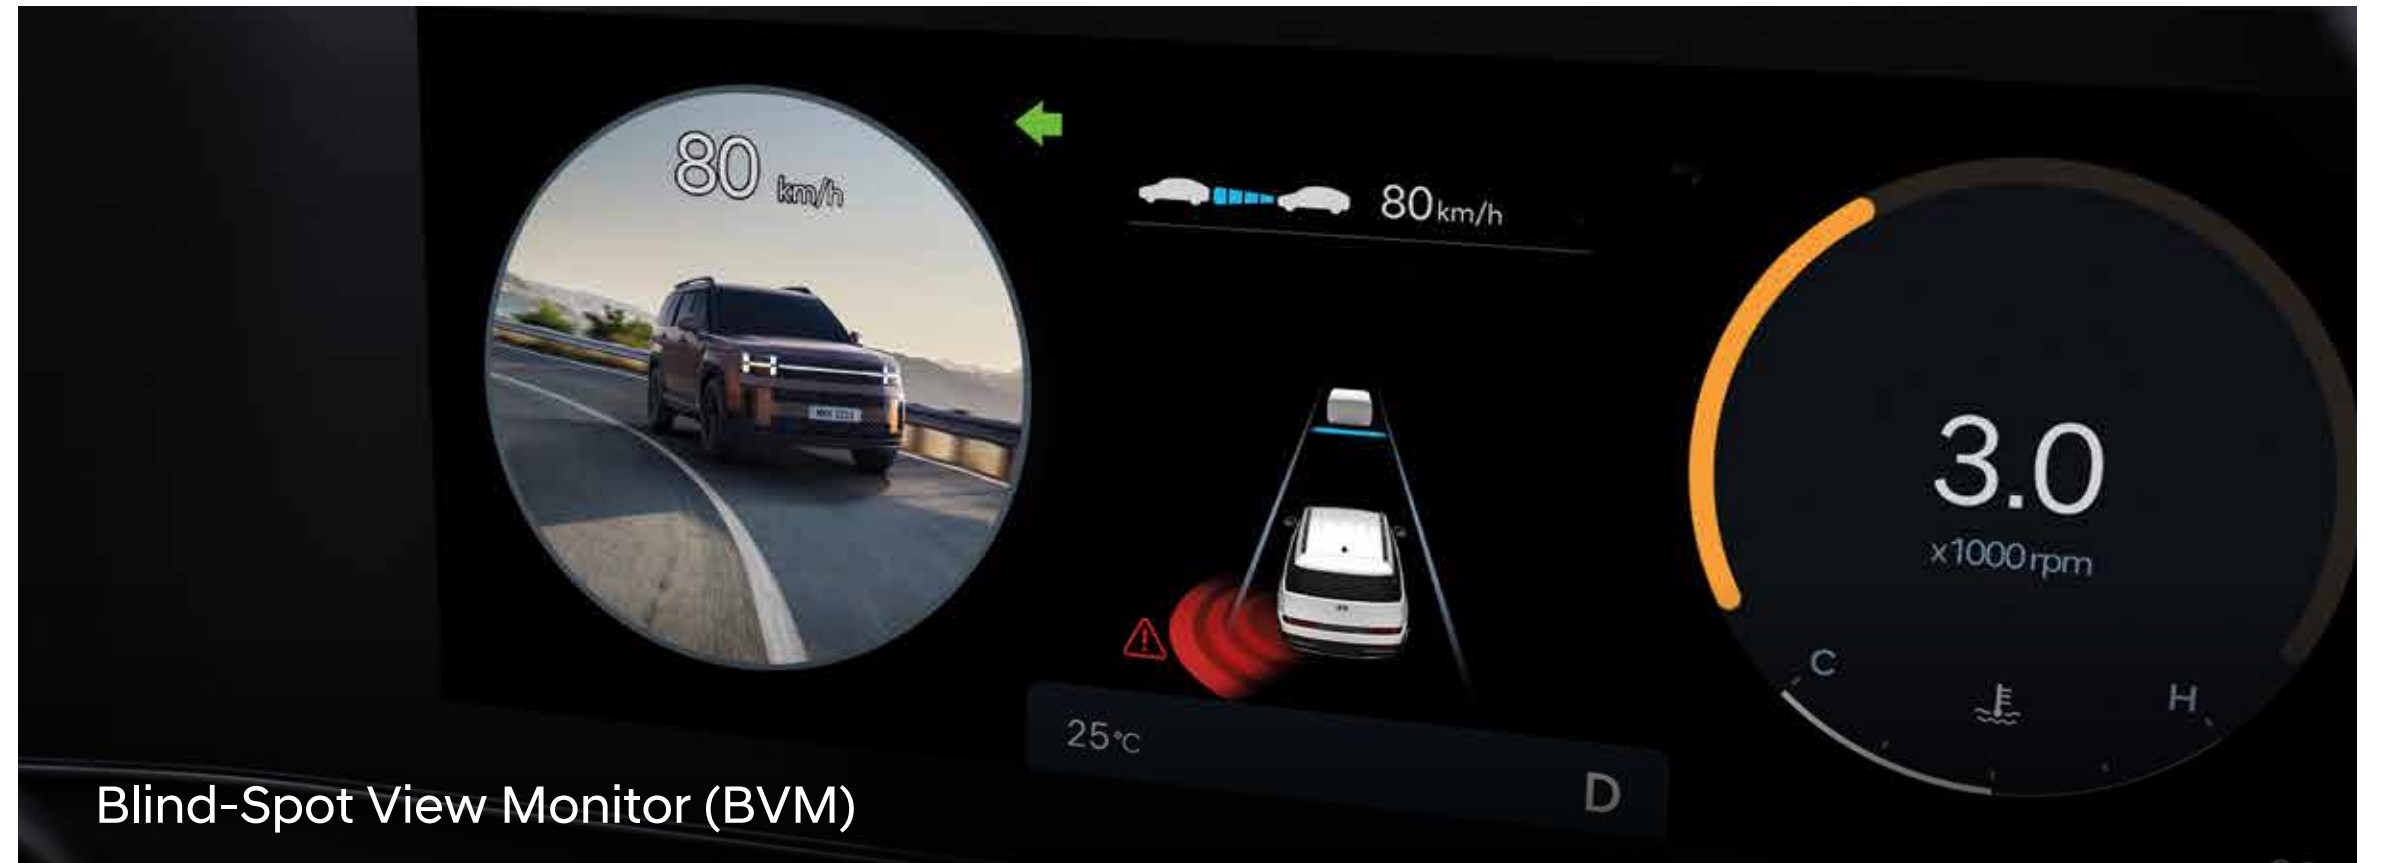

During overtaking acceleration, this function provides a quick acceleration response and improved torque performance.

Safety

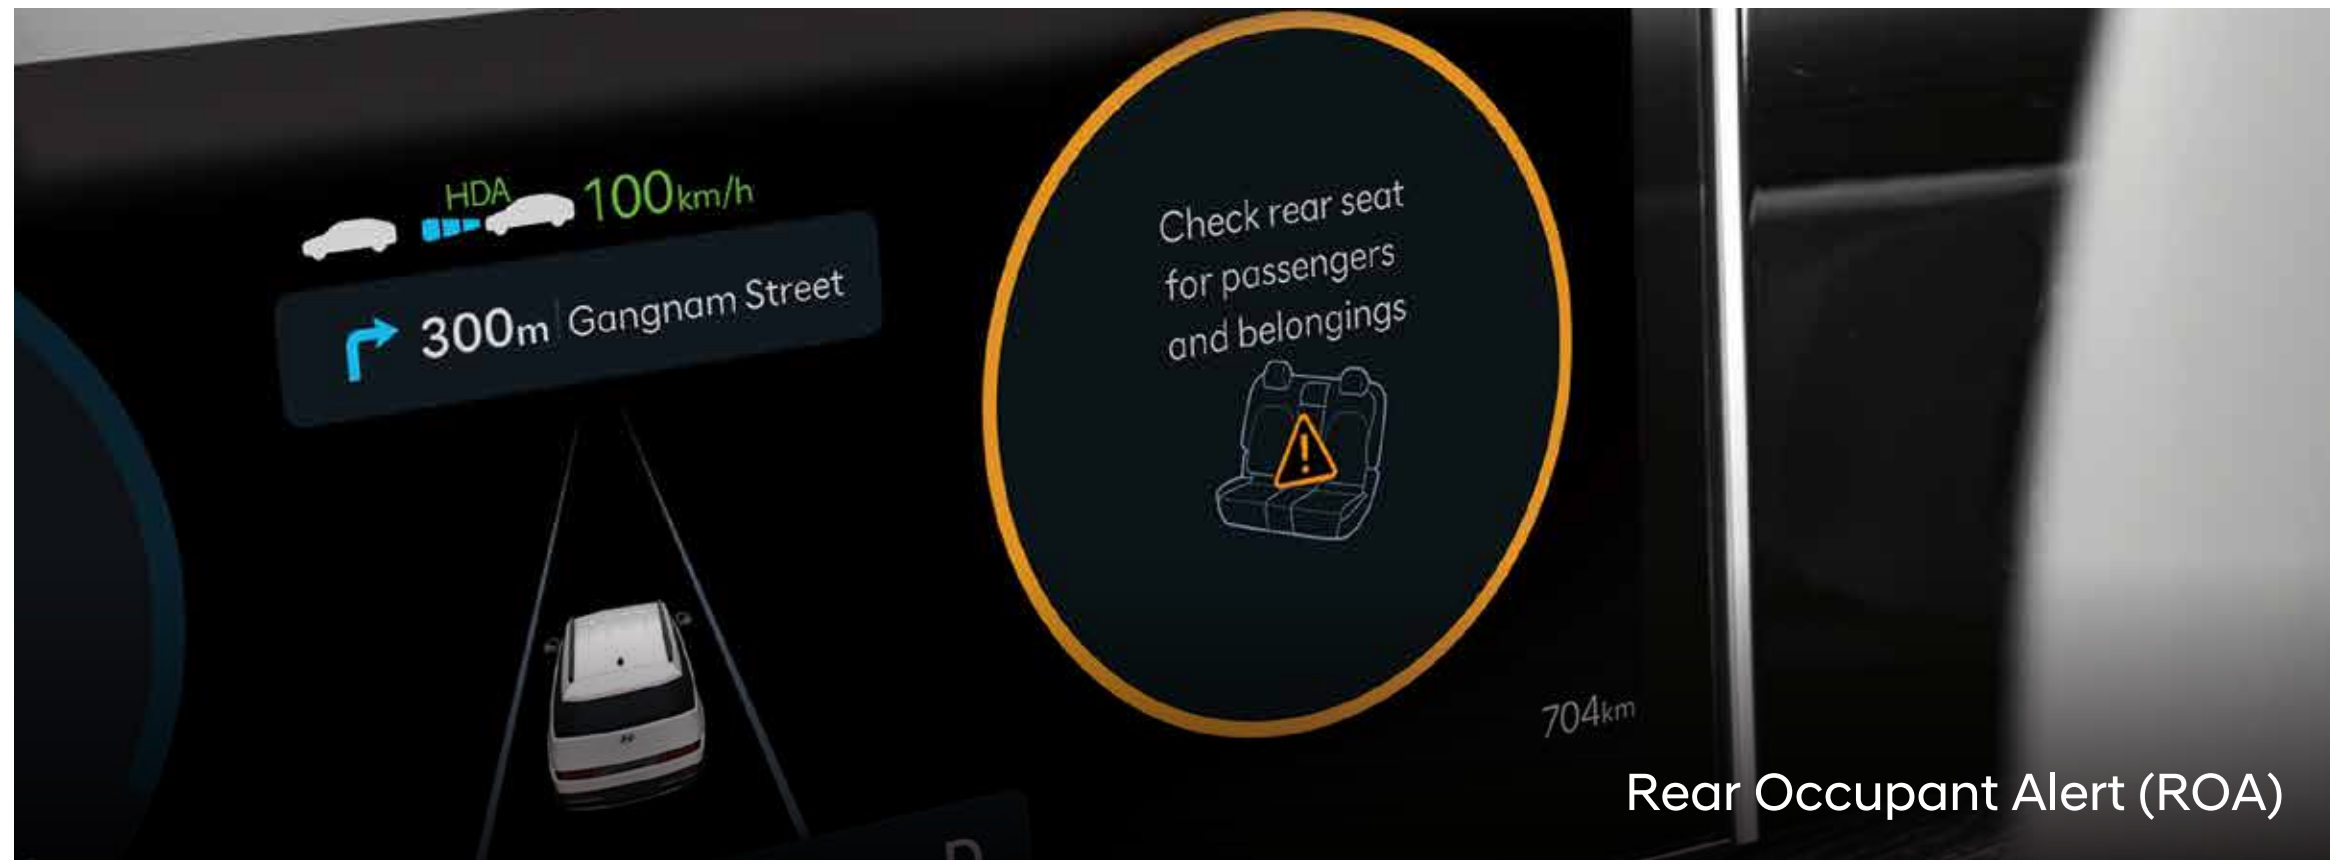

Enjoy the latest in safety enhancements, allowing you to journey forth with less concern over the unexpected.

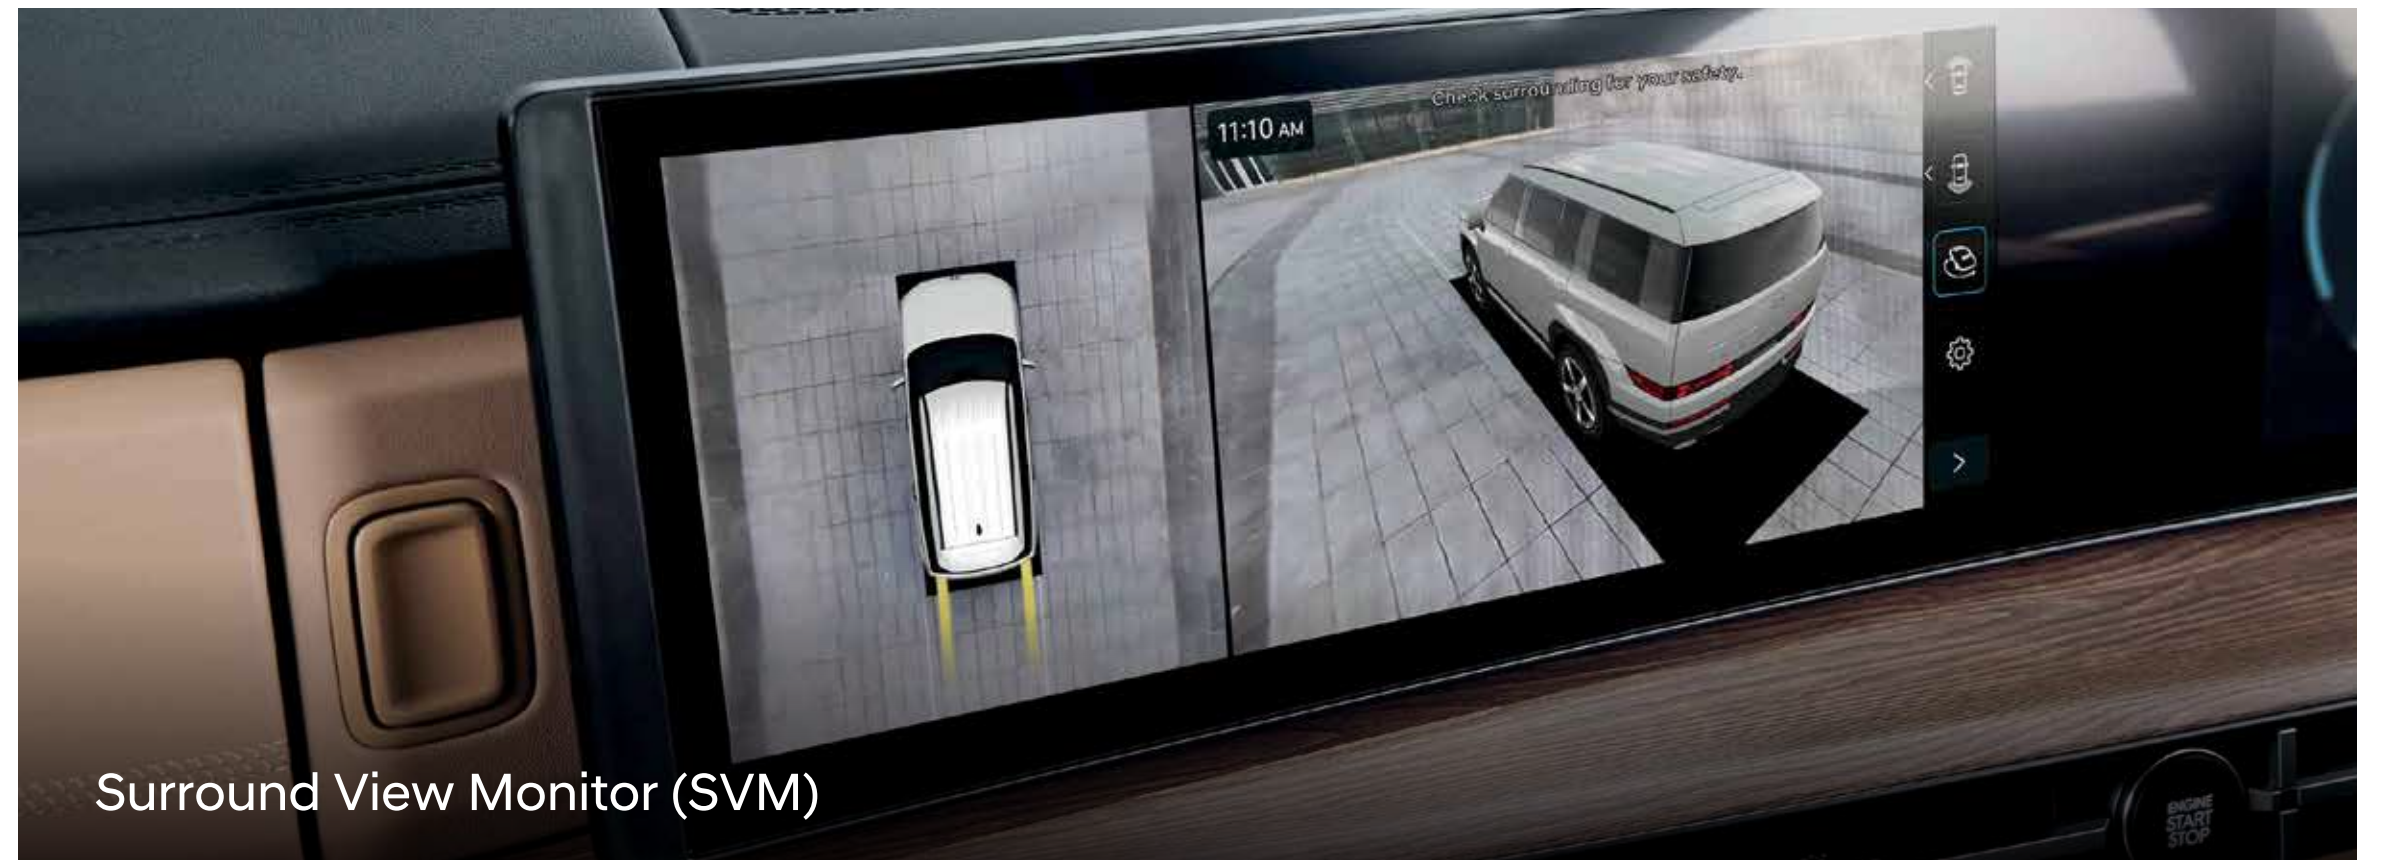

10 Airbags

Blind-Spot View Monitor (BVM)

Rear Occupant Alert (ROA)

Surround View Monitor (SVM)

HyundaiSmartSense

Forward Collision-Avoidance Assist 2 (FCA 2)

Forward Collision-Avoidance Assist 2 (FCA 2) monitors your surroundings and warns you if there is a risk of collision. After the warning, it automatically assists with emergency braking if the risk of collision increases – with an oncoming vehicle or PTW while turning left at an intersection, with an oncoming vehicle from the left or right, or while driving down the lane. It automatically assists with avoidance steering if there is a risk of collision with an oncoming/preceding vehicle or PTW in the next lane-while changing lanes, a vehicle/PTW/pedestrian/cyclist partially in the vehicle's intended path while driving, or a rear side vehicle/PTW when changing lanes.

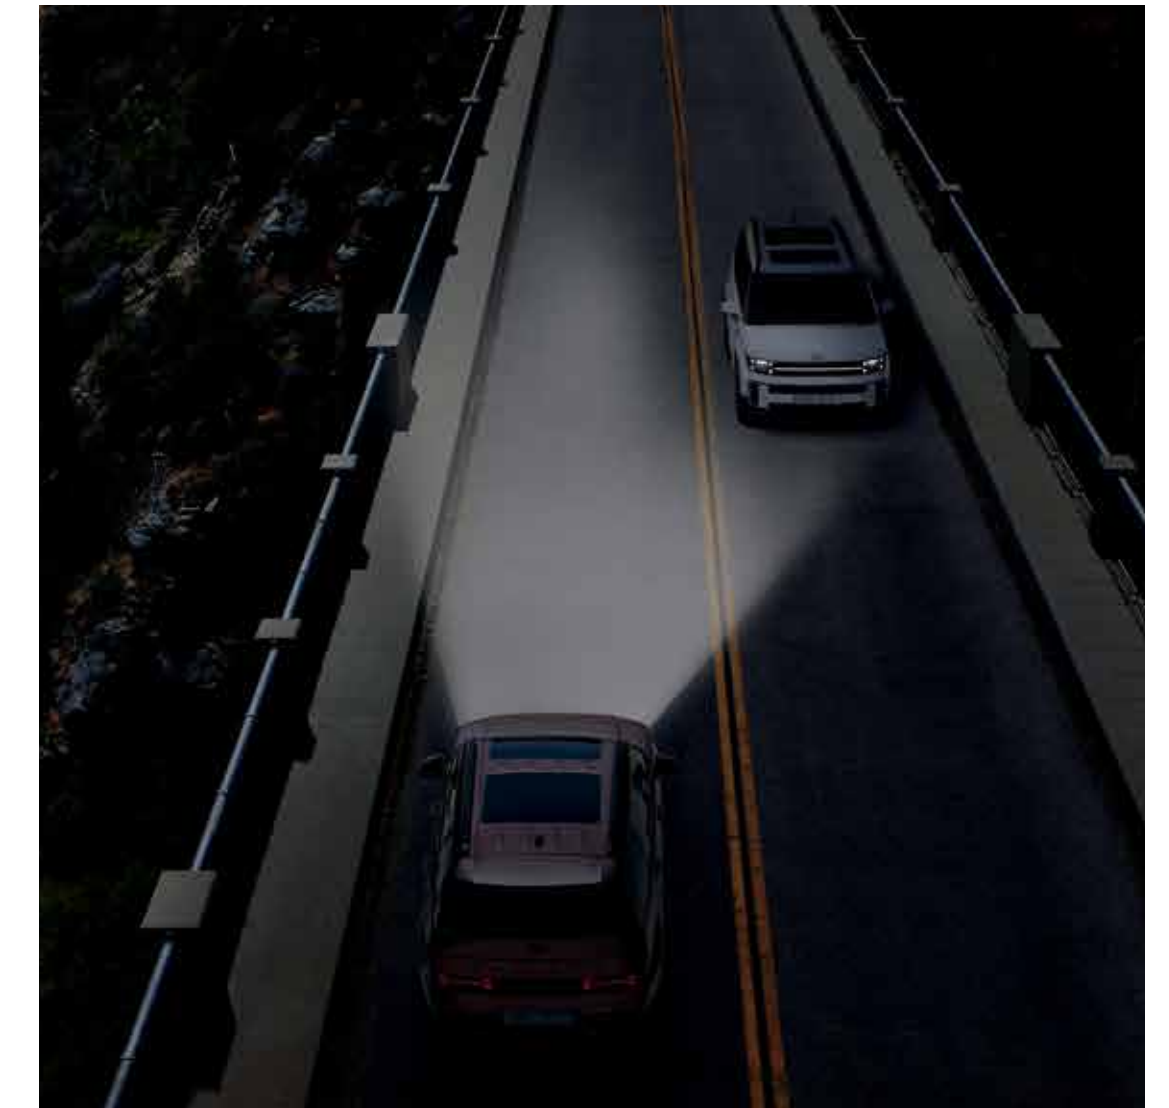

Lane Following Assist (LFA)

Lane Following Assist (LFA) helps center the vehicle in the lane. The control performance has been improved, and the steering actuator control method has changed from torque control to steering angle control. Also, by additionally applying a direct Hands-On Detection (HOD) Sensor to the existing torque sensor recognition method, the performance to determine whether the driver is holding the steering wheel has been improved.

Parking Collision Avoidance Assist (PCA)

Reverse Parking Collision Avoidance Assist (PCA) provides a warning if there is a risk of collision with a rear object while reversing. After the warning, if the risk of collision increases, it automatically assists with emergency braking.

High Beam Assist (HBA)

High Beam Assist (HBA) detects the ambient light illuminance, such as a lamp of an oncoming vehicle or a preceding vehicle, and it automatically adjusts the high beams.

* Features serve as a support only, the driver must still remain focused and careful when driving.

* Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.

* Actual specifications may vary depending on the trim, powertrain and specifications selected.

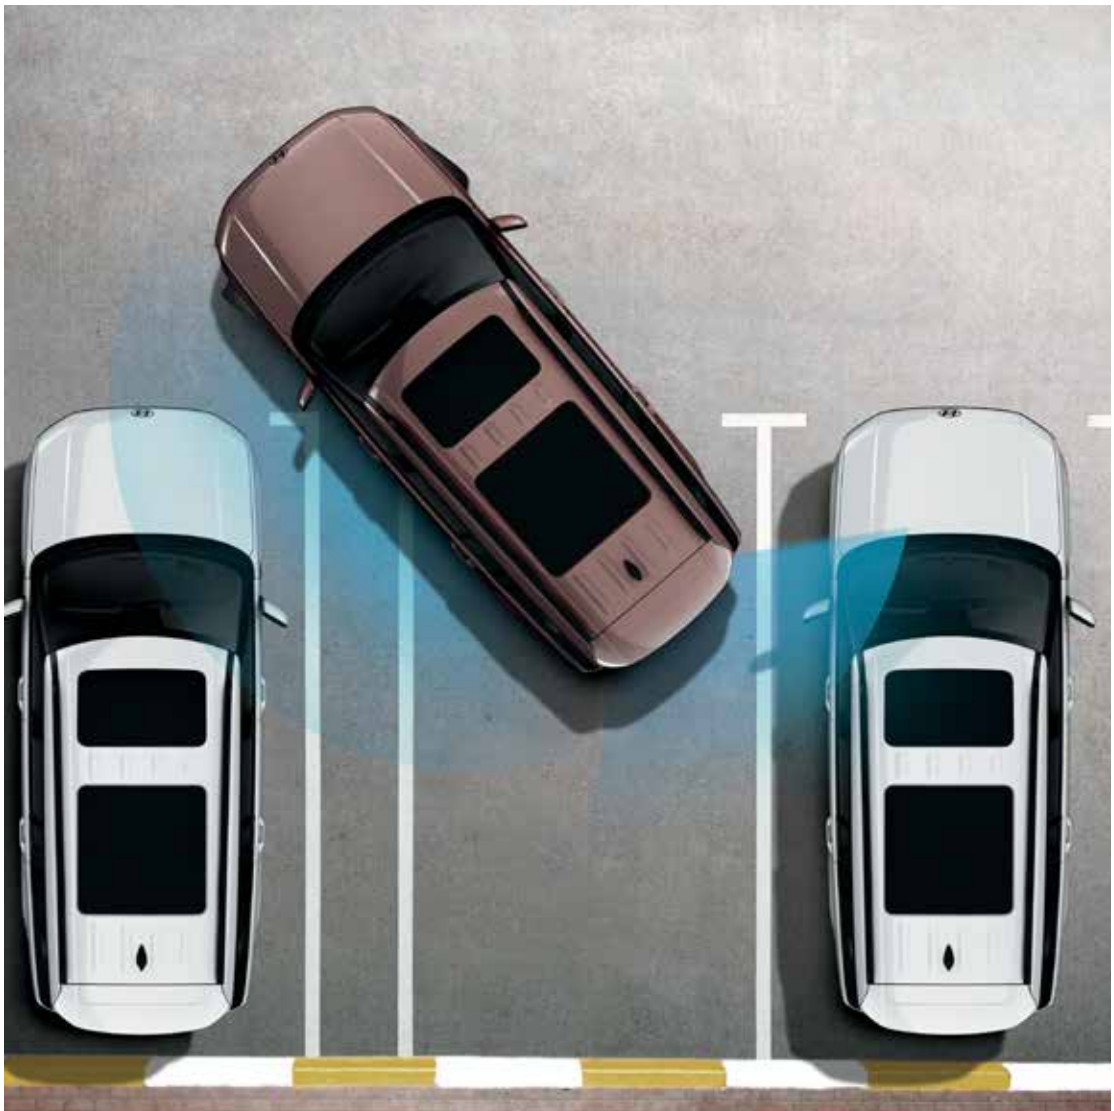

Smart Cruise Control (SCC)

Smart Cruise Control (SCC) helps maintain distance from the front vehicle and drive at a speed set by the driver. Automatically stops when the front vehicle stops and automatically starts when the front vehicle departs within a short time. When SCC is activated, it drives automatically, reflecting the learned driving style. When SCC is inactive (Off/Standby), it learns the driver’s driving style (inter-vehicle distance, acceleration, and reaction speed).

Blind-Spot Collision-Avoidance Assist (BCA)

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with a rear side vehicle in the blind-spot while changing lanes. When forward exiting a parallel-parking spot, if there is a risk of collision with a vehicle approaching from behind, it automatically assists with emergency braking.

Forward/Side/Reverse Parking Distance Warning (PDW)

Forward/Side/Reverse Parking Distance Warning (PDW) warns against collisions with objects around the vehicle at low speeds.

* Features serve as a support only, the driver must still remain focused and careful when driving.
* Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.
* Actual specifications may vary depending on the trim, powertrain and specifications selected.
